Spanning cells

Summary This text occupies three grid columns and is intentionally longer to make the span visible. Updated 2026

Compact layout

Code Short A somewhat longer value Another value End

A B C D E

Longer text in the first cell 2 The third cell contains a longer description 4 The fifth cell

Normal paragraph flow is restored here. This paragraph should no longer be split into grid cells, even though it contains several words and has a different length from the examples above.
